Steps Taken by the Board of Health to Keep Diphtheria in Check—The Law Will be Enforced

The Board of Health held a special meeting in Health Officer Steuber's office last evening with Messrs. Steuber, Blosser, Risk and Hughes present.

The board censured physicians for not being more prompt in reporting cases of contagious diseases.

The mode of dealing with diphtheria, which is threatening another siege on the city, is thoroughly discussed, and it was finally decided that not be placed under the guard of a quarantine officer, but that notices would immediately be served upon the inmates of houses that are infected with the disease, that they shall remain entirely away from the house or congregate themselves entirely within and.

ALLOW NO ONE TO VISIT
or leave the premises until the attending physician furnishes them with a certificate that danger of carrying the disease is passed. Until of this, the Board instructed the health officer to use his own judgment in dealing with the disease.

Health officer Steuber states that he intends to rigidly enforce the orders of the board and that no one violating the rules adopted will be visited and dealt with accordingly. Notices to that effect were served upon the occupants of the infected houses to day. The plan of action seems to be a good one and if strictly carried out will answer its purpose and prevent the disease from spreading.
